Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicant's submittal of an amendment was received on February 2, 2005, wherein claims 1 and 3-5 were amended, claim 2 was cancelled and new claims 6-7 were added.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. **Claims 1 and 5 are rejected under 35 U.S.C. 102(e) as being anticipated by Khennache et al. (US Patent 6,102,413).** Khennache et al. discloses a mounting bracket (18, See Fig. 1) for mounting on a ski (14) of a conventional snowmobile, said mounting bracket having a base plate (42) that is anchorable to an inner surface of a bottom of said ski (See Fig. 1), and a mounting section (52,54) that extends substantially parallel to a sidewall (40,42) of said ski, said mounting section having means for mounting (44,46) a device (19); [**claim 5**] wherein said mounting section includes a right mounting section and a left mounting section (See Fig. 1).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. **Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Khennache et al. (US Patent 6,102,413) in view of Rogers (US Patent 3,777,829).** Khennache et al. discloses the mounting bracket as set forth above including wherein said means for mounting is a mounting bore (50) in said mounting section, but does not disclose wherein said device is a wheel unit. Rogers discloses providing a wheel unit (60,62) mountable to a mounting bracket (See Figs. 2-4). At the time of the invention, it would have been obvious to a person of ordinary skill in this art to mount the wheel unit disclosed in Rogers on the mounting bracket disclosed in Khennache et al. The motivation for doing so would have been to removable wheels to be attached to the snowmobile skis to allow the snowmobile to be transported easily for storage.

Allowable Subject Matter

6. Claims 3-4 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter: regarding claim 3, Rogers does not disclose wherein said ski has a carbide-runner affixed to an

Art Unit: 3618

outer surface of said bottom of said ski by means of a carbide-runner fastener that extends through a bore in said bottom of said ski, and wherein said base plate has a fastener-bore that aligns with said bore in said bottom of said ski.

Response to Arguments

8. Applicant's arguments with respect to claims 1 and 5 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
